

A close-up photograph of a dark, textured material, likely leather, showing a diagonal crease or seam. The texture is grainy and uneven, with some lighter and darker patches. The lighting is soft, highlighting the surface irregularities.

BLAST
Upholstery Leather

hillmann.

About the leather

BLAST is more than real leather; it's a statement on naturalness. The natural cow leather excels with its comfortable wax grip and with the extra strong pull-up effect that is created in the tensor parts of the upholstery. The transparent finish emphasizes all natural characteristics and gives the leather its unique character. Colour variations between hides and also in the same hide are characteristic for this leather, which has a thickness of 1.4 mm, and make every hide unique.

Specifications

Name	BLAST
